Dear Volvo Enthusiast, Thank you for your interest in the Volvo Club of America. VCOA is a national organization of owners and enthusiasts of all Volvo models, from the historical to the latest offerings. Our membership exemplifies this diversity ~ we own Volvos from the 1930s right up to the latest series cars. Active groups of 444, 544, 122 and 1800 enthusiasts share their experiences with new model owners.

Some of the major benefits of membership in VCOA include:

Rolling. The magazine of Volvo Club of America, *Rolling* is published six times annually, and contains current news and technical information, and historical and general interest articles, as well as a calendar of events, regional and chapter news, classified advertising, and various discount sources. The magazine provides articles devoted to maintenance and enjoyment of all Volvo models.

Parts & Service Discounts: As with any other piece of machinery, a Volvo requires periodic maintenance and replacement of worn parts. VCOA helps members reduce these costs by up to 25%. A growing number of Volvo dealers and aftermarket parts suppliers around the country offer discounts to VCOA members. Your club membership can pay for itself in parts discounts alone.

Local Chapters: VCOA members live in virtually every state ~ from Alaska and Hawaii to Main and Florida, and all points between. Local chapters across the country are basis for club events close to home.
The Cactus Chapter does service the state of Arizona out of Phoenix.

Regional & National Meets: VCOA sponsors annual Volvo meets featuring concours events, technical workshops, rallies, swap meets, and banquets. These social events are for the entire family and highlight VCOAS's annual activities.

Technical Assistance: Owners of older Volvos are especially interested in technical information and assistance, both for repairs and for modifications to there cars. VCOA helps you plug into a network of individuals across the country that can help the owner of any Volvo better understand how to maintain his or her Volvo.

VCOA Internet Mail List: Sponsored by VCOA, the list provides computer users access to an Internet forum for technical, historical, and general information related to all Volvo models and years and activities their owners enjoy. On the Net, experienced Volvophiles and master mechanics can answer questions, help locate sources for hard-to-find items, and give you the directions to the next Volvo-related activity! <http://www.vcoa.org>.

Other Benefits: VCOA also provides you with club membership card, a multicolor window decal, and the opportunity to obtain various accessories and books at lower prices.

Most importantly, membership in the Volvo Club of America will bring you camaraderie with other Volvo owners and enthusiasts who share your interest in Volvos.

Please join us today! Dues are \$30 yearly. Renewal On The Anniversary Of Your Joining.
Local chapter membership is separate and not included.
